

Firing an Individual Course for a Diner

To fire an individual course for a diner:

1. Select the diner whose course you want to fire.
2. On the right side of the screen, for the course you want to fire, tap its **Fire Course** button. The items in that meal course are fired to the kitchen.

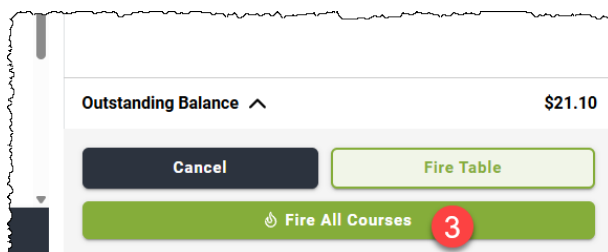

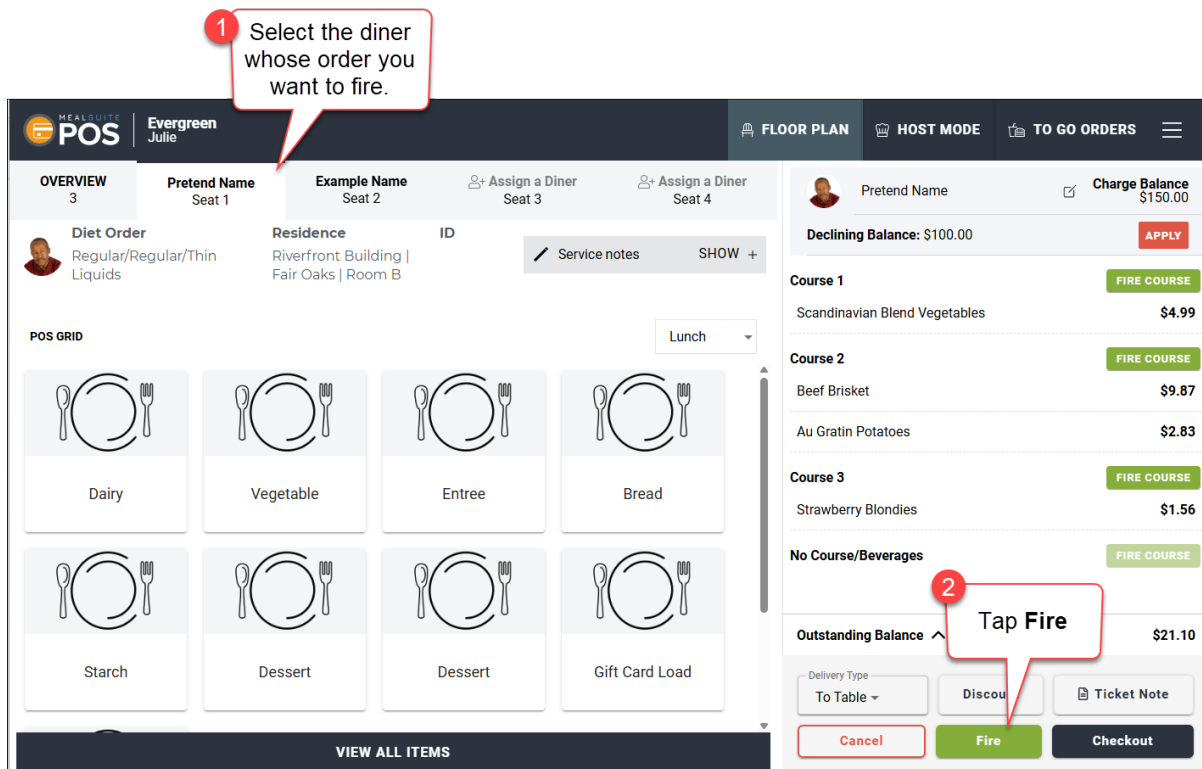

Another means to fire an individual course to the kitchen is on the **Overview** tab by tapping the **Fire Course** button for the course and the diner.

Firing All Courses for a Diner

The quickest means to fire all courses for a diner is as follows:

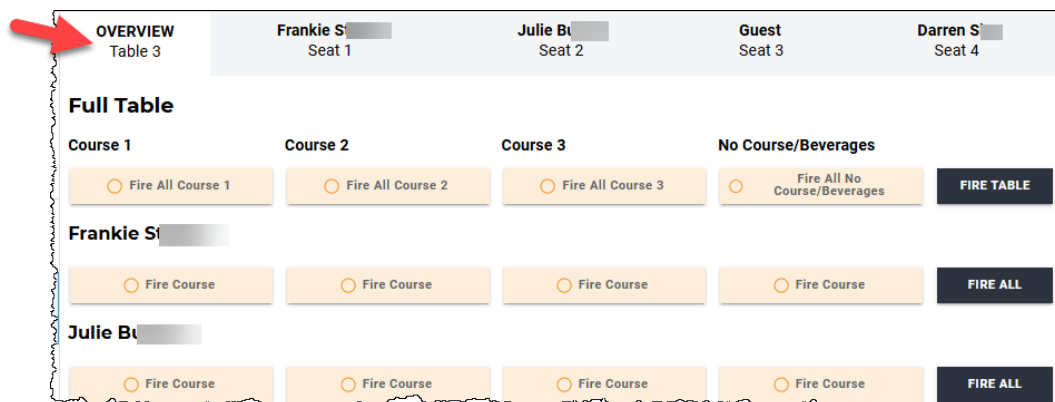

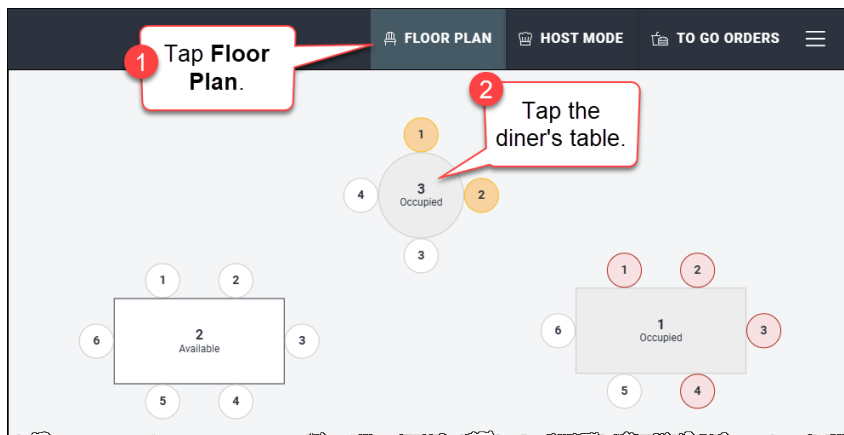

1. Select the diner whose order you want to fire.
2. On the right side of the screen, tap the **Fire** button (first screenshot below). The screen refreshes with the **Fire All Courses** button (second screenshot below).

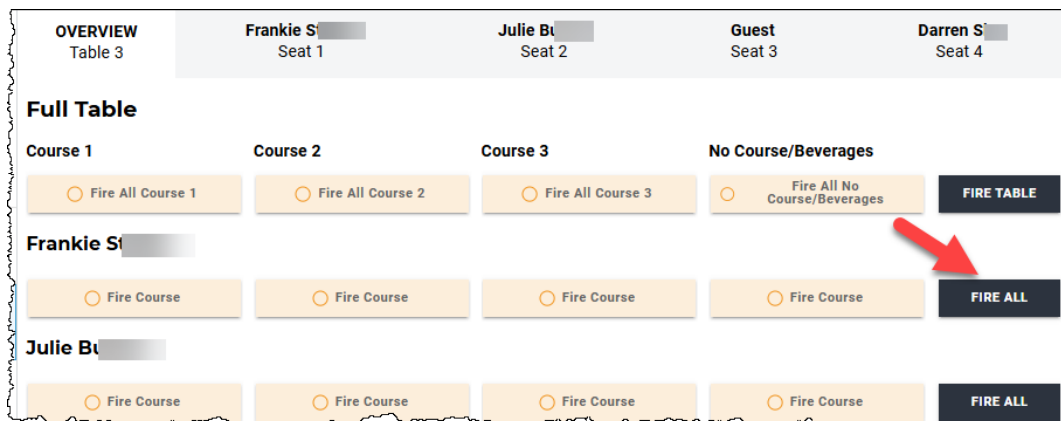

3. Tap the **Fire All Courses** button. The courses are fired to the kitchen.

Another means to fire all courses for a diner is as follows:

1. Tap **Floor Plan**.
2. Tap the diner's table. The **Overview** tab appears displaying the seated diners (second screenshot below).

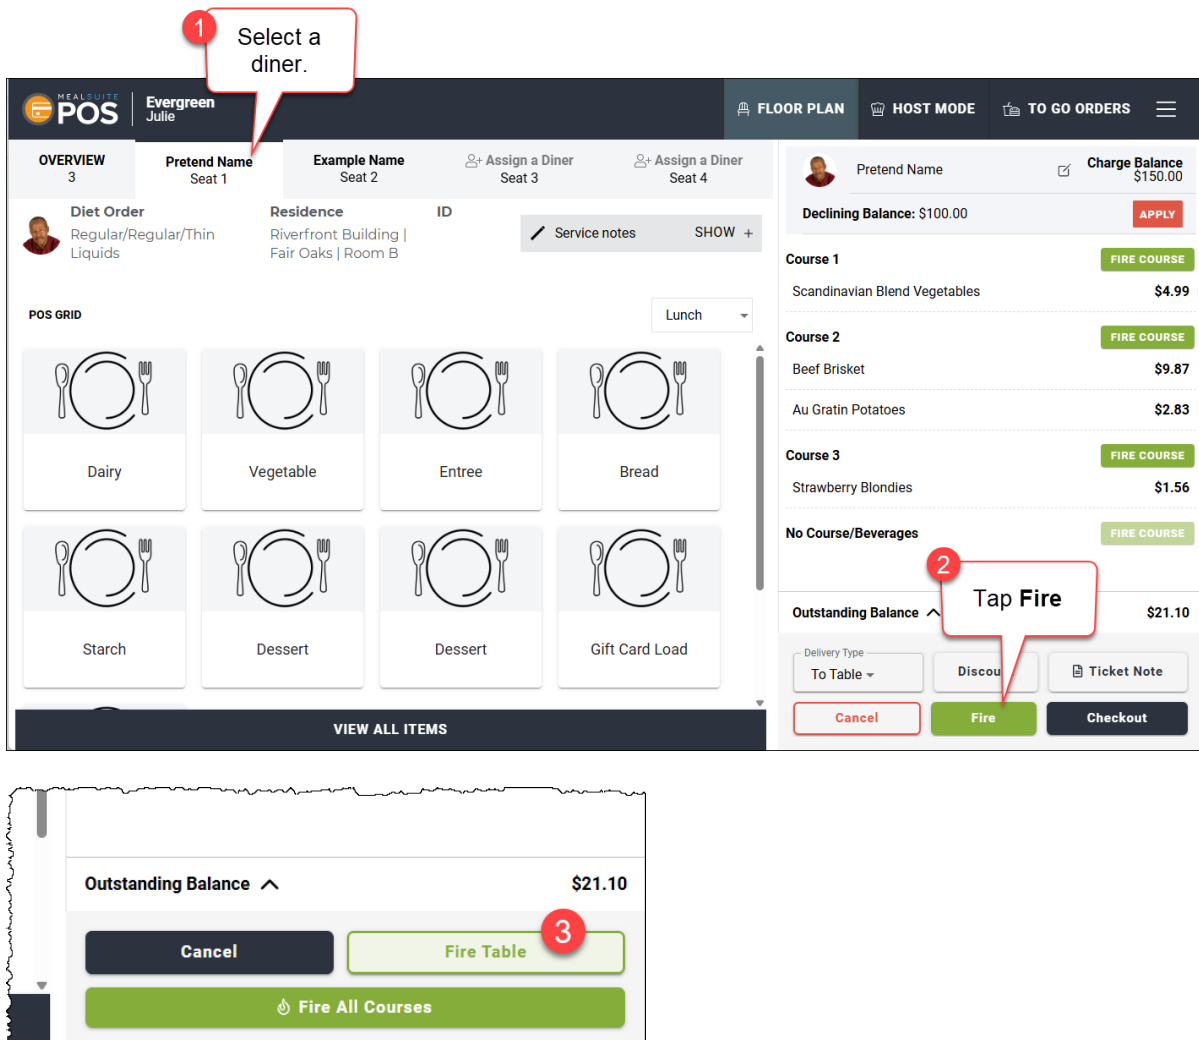

3. For the diner whose courses you want to fire, click their **Fire All** button.

Firing All Courses for a Table

A quick means to fire all courses for a table is as follows:

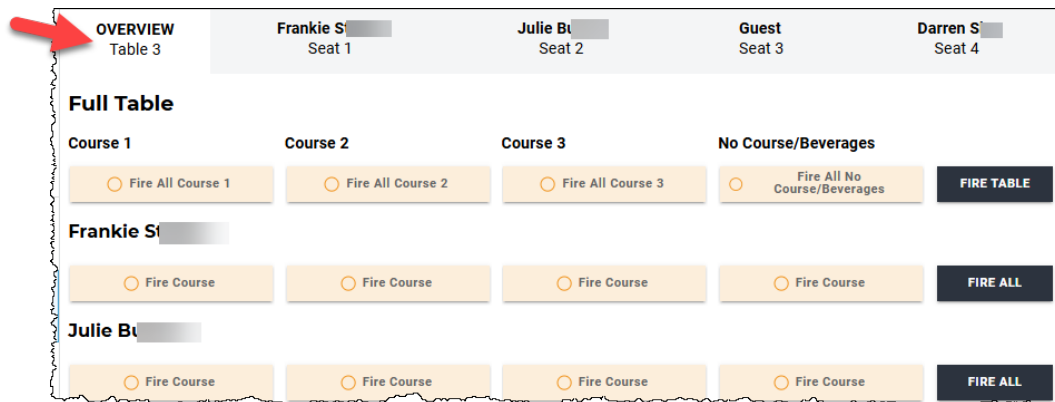

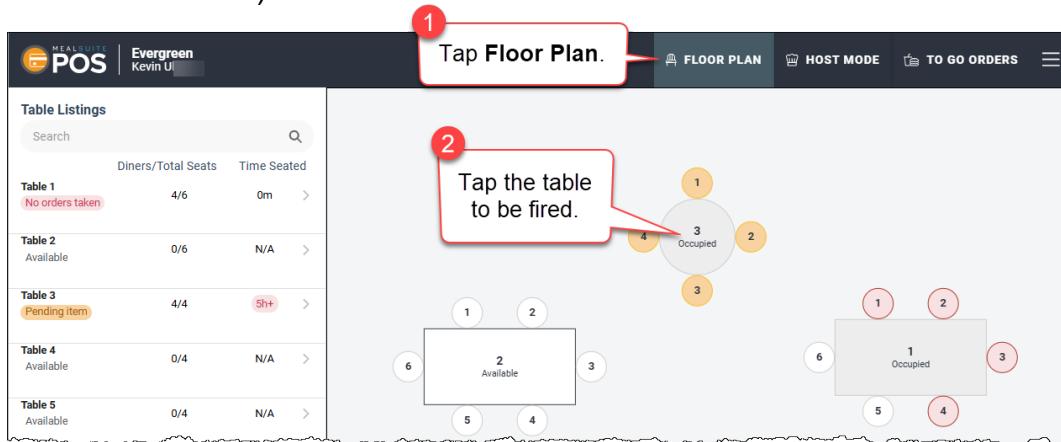

1. If you are a POS dining room location, select a diner.
2. On the right side of the screen, tap the **Fire** button (first screenshot below). The screen refreshes with the **Fire Table** button (second screenshot below).

3. Tap the **Fire Table** button to fire all courses for the table.

Another means to fire all courses for a table is as follows:

1. Tap **Floor Plan**.
2. Tap the table to be fired. The **Overview** tab appears displaying the seated diners (second screenshot below).

3. Tap the **Fire Table** button to fire all courses for the table.
