

## Firing an Order for a Diner

1. If you are a POS dining room location, select the diner whose order you want to fire.
2. On the right side of the screen, tap the **Fire** button (first screenshot below). The screen refreshes with the **Fire Seat** button (second screenshot below).

3. Tap the **Fire Seat** button. The order is fired to the kitchen.

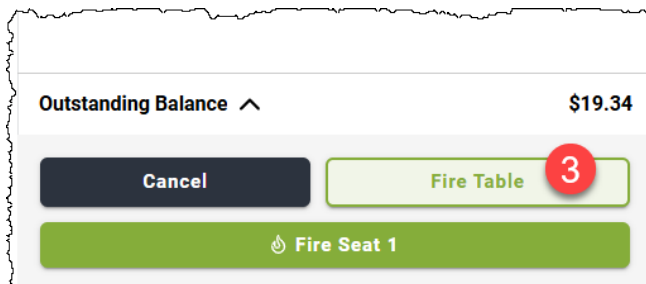

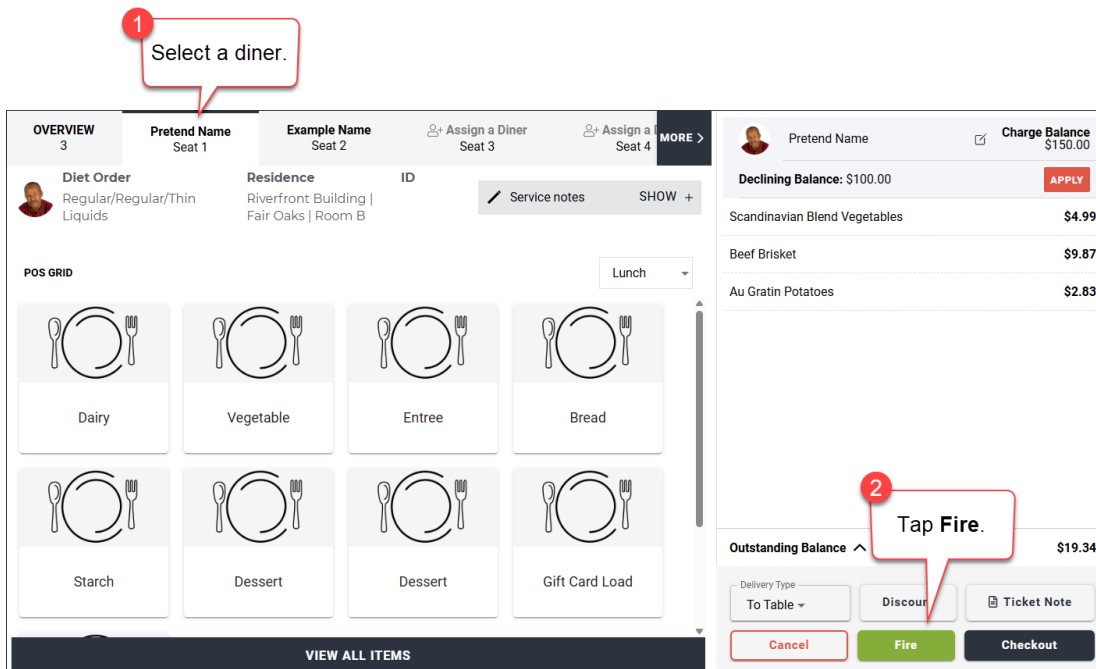

- 4. Another means to fire an order is on the **Overview** tab by tapping either the **Fire Items** button or the **Fire All** button for the diner whose order you want to fire.

## Firing All Orders for a Table

A quick means to fire all orders for a table is as follows.

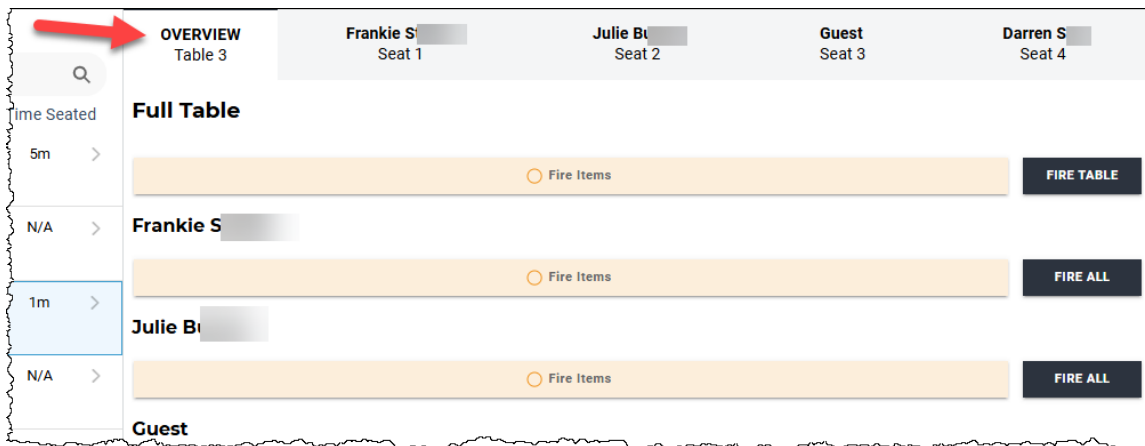

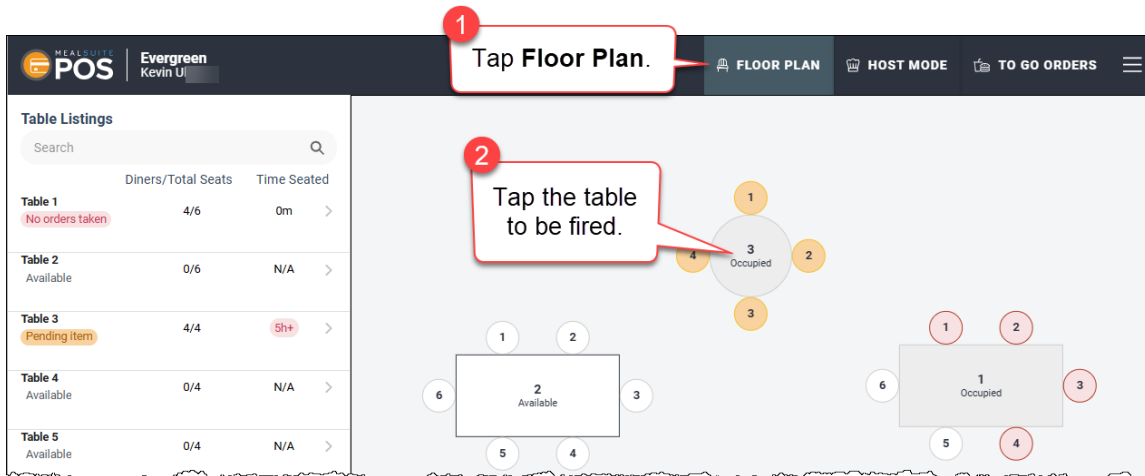

1. If you are a POS dining room location, select any diner.
2. On the right side of the screen, tap the **Fire** button (first screenshot below). The screen refreshes with the **Fire Table** button (second screenshot below).

3. Tap the **Fire Table** button to fire all orders for the table.

Another means to fire all orders for a table is as follows:

1. Tap **Floor Plan**.
2. Tap the table to be fired. The **Overview** tab appears displaying the seated diners (second screenshot below).

3. Tap the **Fire Table** button to fire all orders for the table.
